

Minimal Device Requirements to Connect to oneChart

Bring your own device

The following table defines the minimal hardware and software configuration required to access the Beaumont oneChart application. In addition we recommend that you run anti-virus software and that you keep your device updated to the most current service/security level patches for the best experience.

Once you are on Beaumont campus, connect to the “wbhdoctor” wireless network and follow the instructions in section 2 below, “Accessing Physician Portal”.

Minimum device requirements:

Windows	Apple
Windows XP (SP3) or later	OS X 10.5 or Later (Snow Leopard Preferred)
1GB of memory	1GB of memory
10GB of free hard disk space	10GB of free hard disk space
1024 x 768 minimal screen resolution	1024 x 768 minimal screen resolution
Wireless Networking 802.11 a/b/g (optional 802.11 n)	Wireless Networking 802.11 a/b/g (optional 802.11 n)
Administrative rights to install software	Administrative rights to install software

Purchase a Beaumont Recommended Laptop Configuration

Beaumont deploys the Dell Latitude E4200 Ultra Light Weight Laptop to Physicians, Hospitalists, Residents and Knowledge workers. This recommended configuration has been tested and is optimal for securely accessing oneChart. We are also working with Dell to develop a program to offer the following configuration for purchase by physicians at a steeply discounted price. Program details to follow.

Beaumont Recommended Configuration

Dell Latitude E4200 Ultra Light Weight (less than 3 lbs, with good battery life)	
Intel Core 2 Duo – 1.6 GHz	Bluetooth
Webcam	Wireless 802.11 a/b/g
2 GB Memory	3 year warranty
64 GB Solid State Hard Drive	Extra Battery and case
Windows 7 Pro	
6 cell battery
